

The Complete Range of
Adhesive Tapes

Disposables & Customised Kits

Medical & Surgical Devices

Ortho-Rehabilitation Products

ABOUT US

Founded in 2002, Asmoh Group today has presence in the fields of Medical and Surgical Devices, Industrial and Medical Adhesive Tapes, Eco-friendly non-woven bags among others. At Asmoh Group we take pride in delivering quality consistently for over 15 years, and growing on the trust and goodwill of our customers. Focusing on the future, we are expanding rapidly into newer products and geographies, and are slated to be amongst the fastest growing homegrown companies in the country.

Asmoh has been a significant player in medical disposables and devices, offering a wide range of products, and catering to the needs of the medical fraternity for over 15 years.

QUALITY ASSURANCE

At Asmoh, Quality Assurance is at the heart of how we do things. Our comprehensive Quality Management System ensures exhaustive checks and testing at all stages in the production cycle, right from raw material procurement till packing of the finished products. And our state-of-the-art manufacturing facilities at Bahadurgarh near New Delhi meet the strictest international compliances and requirements.

Our rigorous quality control standards have earned us the WHO GMO certification, CE Marking as per European Medical Device Directive 2007/47/EC, ISO 9001:2008, ISO 13485:2012 certifications.

STRICT HYGIENE AND SAFEGUARDS

At Asmoh, we have set stringent hygiene and environment friendly standards. Walls and flooring at all facilities are epoxy coated to minimize bio load, and Special HEPA/micro filters are provided at all air handling equipment to minimize contamination in the manufacturing areas.

RESEARCH AND DEVELOPMENT

In line with our vision of Innovating for Tomorrow, there is immense focus internally on Research and Development. A modern laboratory equipped with pilot plant facilities works constantly on improving existing products and developing new innovative products for the portfolio.

GLOBAL PRESENCE

Asmoh Group's vision spans across geographies, catering to domestic as well as international markets. With offices in U.S. and Indonesia, and operations across Latin America, Africa and South-East Asia, the group is fast expanding its footprint globally.

Foley Balloon Catheter

High Flow / Regular Flow

High Flow 2 Way | ASM 520

High Flow 3 Way | ASM 521

Regular Flow 2 Way | ASM 500

Regular Flow 3 Way | ASM 501

LOWER TRAUMA DURING CATHETERIZATION

REDUCED TISSUE DAMAGE

LONGER IN-DWELL TIME

TRAUMA FREE REMOVAL

100% SAFETY

- Used for short/long term urine drainage
- Made from natural latex rubber
- Silicon elastomer coated smooth surface for atraumatic catheterization
- High strength polymer layer in the middle layer of the catheter ensures wider inner diameter and hence high flow rate
- Minimises encrustation and subsequent catheter blockage and failure
- Smooth eye, ultra thin highly elastic balloon and hard non-return valve for trouble free inflation and deflation

TWO WAY		THREE WAY	
Size in FR	Baloon Capacity	Size in FR	Baloon Capacity
6	3cc	16, 18, 20, 22, 24, & 26	30cc - 50cc
8-10	3cc - 5cc	14	15cc - 30cc
12-14	5cc - 15cc		
16-26	30cc - 50cc		

Packing

- Sterile, Individually packed in peelable pouch
 - Box of 10, Master Carton or 200
- Gross : 14 kg Approx.

SIZES										
FR	8	10	12	14	16	18	20	22	24	26
Colour Code	Black	Grey	White	Green	Orange	Red	Yellow	Voilet	Blue	Pink

All Silicon Foley Balloon Catheter

2 WAY | ASM 517
3 WAY | ASM 519

Latex Free

- Used for longer term urine drainage Rounded Sealed Tip
- Made of 100% silicon
- Non-toxic, bio-compatible and extra smooth for maximum patient comfort
- Symmetrical balloon, rounded sealed tip and hard non-return valve for trouble free inflation and deflation

Asmocath

Foley Balloon Catheterization Kit

ASM 518

- Complete solution for the catheterization process
- Easy to use, store and transport
- Increases efficiency for medical practitioners

List of contents:

- Foley Balloon Catheter
- Urine Bag
- Syringe
- Urine Culture Bottle 30 ml
- Povidone
- Plastic forceps
- Lignocaine Gel
- Drape sheet with rhomboid hole
- Sterile water
- Water Proof drape
- Gauze Swab 7.5cmx7.5cmx12 ply Latex Gloves 2 pair

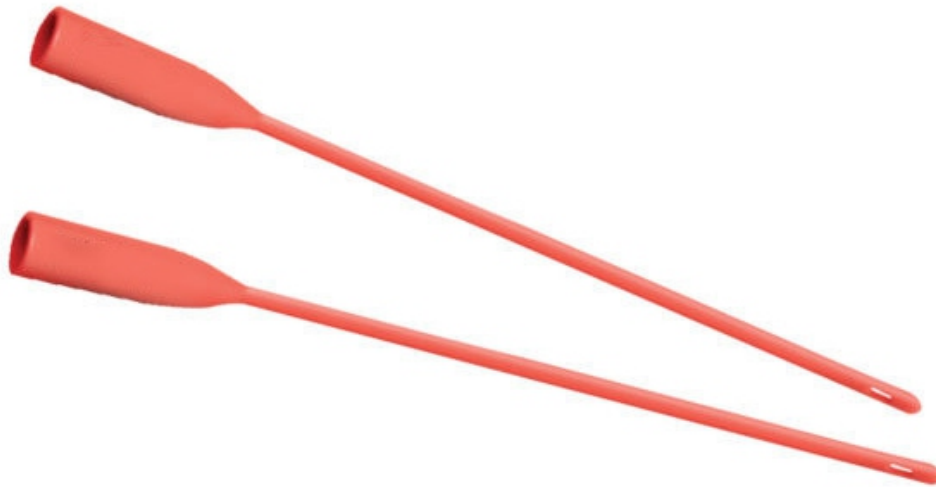

Packing

- Sterile, individually packed in peelable pouch pack.
- Carton of 30 Pcs.

Gross : 19.5kg

Red Rubber Nelaton Catheter / Jaques IR Catheter

ASM 522

- Red natural latex rubber catheter used across the spectrum of health care for all patient types.
- High quality construction ensure consistency of use and patient comfort.
- Smooth tip and funnel end made from a radiopaque material.
- Two large opposing eyes for optimum drainage
- Suitable for male or female catheterization
- Product type - Intermittent Catheter
- Product style - Straight tip

Packing

- Sterile, individually packed in peelable blister pack.
- Box of 10; Master Carton of 600

Gross : 15kg

SIZES										
FR	8	10	12	14	16	18	20	22	24	26

Nelaton / urethral Catheter

ASM 502

- Used for one time urine drainage for patients
- Made from non-toxic, non-irritant, medical grade PVC
- Radio opaque line provided through out the catheter for X-ray visualization
- Distal end with lateral eye and proximal end funnel connector, for maximum drainage and easy connection to the urine bag

VERSION	EFFECTIVE LENGTH	TOTAL LENGTH
Male	370mm	400mm
Female	170mm	200mm

Packing

- Sterile, individually packed in peelable blister pack.
- Box of 100; Master Carton of 1000

Gross : 14.2kg

SIZES							
FR	8	10	12	14	16	18	20
Colour Code	Black	Grey	White	Green	Orange	Red	Yellow

Male External Catheter Penile Sheath

ASM 503

- Used for urine drainage in incontinent male patients
- Made from natural latex rubbers
- Provided with adhesive strip for proper fixing of the catheter

Packing

- Sterile, individually packed in peelable blister pack.
- Box of 50; Master Carton of 500

Gross : 7.1kg

SIZES	
Small	20mm
Medium	25mm
Large	30mm
Extra Large	35mm

Siliconised Endotracheal Tube - Cuffed & Plain (Nasal/Oral)

Cuffed | ASM 701 SC
Plain | ASM 701 SP

**PTHALATE
FREE**

- Used to maintain a patent airway and mechanically ventilate patients.
- Made from a special non-toxic Silicon and PVC blend.
- PHTHALATE FREE - minimizing patient exposure to carcinogenic Pthallate.
- Extra Smooth, non-adherent inside/outside surface for ease in intubation, extubation and suctioning.
- Kink resistant, thin-walled, thermo-sensitive tube. Softens at body temperature.
- Smooth polished murphy eye, distal end and tapered balloon end for atraumatic intubation and extubation.
- Kink resistant inflation tube to ensure patient safety during cuff inflation and deflation.
- Radio opaque line and markings provided to facilitate identification of tube postion.
- Universal 15 mm connecter at proximal end
- E.T.O Sterile and Pyrogen free. For single patient use

Packing (Cuffed)

- Sterile, individually packed in peelable blister pack.
 - Box of 25; Master Carton of 200/400
- Gross : 6.5kg (400 pcs) = 500 x 500 x 350 (2.0 to 4.0mm)
Gross : 6.3kg (200 pcs) = 660 x 320 x 380 (4.5 to 6.0mm)
Gross : 8.6kg (200 pcs) = 660 x 380 x 420 (6.5 x 10.0mm)

Packing (Plain)

- Sterile, individually packed in peelable blister pack.
 - Box of 25; Master Carton of 200/400
- Gross : 6.5kg (400 pcs) = 500 x 500 x 350 (2.0 to 4.0mm)
Gross : 6.3kg (200 pcs) = 660 x 320 x 380 (4.5 to 6.0mm)
Gross : 8.6kg (200 pcs) = 660 x 380 x 420 (6.5 x 10.0mm)

SIZES - CUFFED

Endotracheal Tube - Subglottic Suction Line

ASM-722

**PTHALATE
FREE**

- Used to maintain a patent airway in long term mechanically ventilated patients
- Made from a special non-toxic medical grade PVC
- Special suction port for removal of subglottic secretions using syringe/suction minimize the risk of VAP(Ventilator Associated Pneumonia)
- Extra smooth, non-adherent inside/outside surface for ease in intubation, extubation and suctioning
- Kink resistant, thin-walled, thermo-sensitive tube. Softens at body temperature
- Smooth polished murphy eye and distal end for atraumatic intubation and extubation
- Radio opaque line and markings provided to facilitate identification of tube positions Universal 15 mm connector at proximal end.
- E.T.O Sterile and Pyrogen free. For single patient use packed.

SIZES - CUFFED

6.0 mm, 6.5 mm, 7.0 mm, 7.5 mm, 8.0 mm, 8.5 mm

Packing

- Sterile, individually packed in peelable / blister pack.
 - Box of 25; Master Carton of 200 pcs.
- Gross : 6.5kg

Reinforced Endotracheal Tube - Cuffed & Plain (Nasal/Oral)

Cuffed | ASM 719 C
Plain | ASM 719

**PTHALATE
FREE**

- Used to maintain a patent airway and mechanically ventilate patients.
- Made from non-toxic, non-irritant medical grade PVC.
- Uniform spiral metal-reinforced tube wall to prevent the tube from kinking.
- Reinforcement supports tube position and verification during X-ray.
- Accurate and safe positioning ensured by graduation marks and tip-to-tip radiopaque line.
- High volume / low pressure cuff ensures efficient low pressure cuff seal (For cuffed tubes).
- Universal 15 mm connector at proximal end.
- Recommended use of bite block / Guedel airway.
- E.T.O sterile and pyrogen free. For single patient use.

Packing

Sterile, Individually packed in peelable pouch / blister packed.

Box of 25; Master Carton of 200 pcs.

Gross: 7.4kg (400 pcs)

Gross: 7.2kg (200 pcs)

Gross: 9.5kg (200 pcs)

SIZES - CUFFED

3.0 mm, 3.5 mm, 4.0 mm, 4.5 mm, 5.0 mm, 5.5 mm, 6.0 mm,
6.5 mm, 7.0 mm, 7.5 mm, 8.0 mm, 8.5 mm, 9.0 mm, 9.5 mm

SIZES - PLAIN

3.0 mm, 3.5 mm, 4.0 mm, 4.5 mm, 5.0 mm, 5.5 mm,
6.0 mm, 6.5 mm, 7.0 mm, 7.5 mm, 8.0 mm, 8.5 mm

Reinforced Endotracheal Tube - Cuffed & Plain (Nasal/Oral)

Cuffed | ASM 718 SC & SMD 717C
Plain | ASM 718 S & SMD 717

- Used to maintain a patent airway and mechanically ventilate patients.
- Made from non-toxic, non-irritant medical grade PVC.
- Preformed tubes reduce the risk of kinking and improve access to the operative field.
- Tube can be temporarily straightend for ease of suctioning.
- Smooth polished murphy eye, distal end and tapered balloon end for atraumatic intubation and extubation.
- Accurate and safe positioning ensured by graduation marks and tip-to-tip radiopaque line.
- High volume / low pressure cuff ensures efficient low pressure cuff seal (For cuffed tubes).
- Universal 15 mm connector at proximal end.
- E.T.O sterile and pyrogen free. For single patient use.

Packing

- Sterile, Individually peelable pouch packed.
- Inner Box : 25 pcs.
- Master Carton of 200 pcs.

PVC Laryngeal Mask Air (Disposable)

SS 751 P

- Supraglottic, non-invasive airway management device.
- Made from non toxic, non irritant medical grade PVC.
- Anatomically engineered mask provided with separate inflation line.
- Provided with universal 15 mm connector.
- Radio opaque line for X-ray visualization.
- Marking provided along the length to facilitate identification of tube position.
- Pilot balloon to check inflation & deflation of cuff.
- ETO sterile and pyrogen free.
- For single patient use

Packing

- Sterile, Individually packed.
- Master Carton of 40.

Gross:
5.0kg

Silicone Laryngeal Mask Airway

SS 751 S

- Supraglottic, non-invasive airway management device.
- Made from medical grade silicon.
- Anatomically engineered mask provided with separate inflation line.
- Provided with universal 15mm connector.
- Radio opaque line for X-ray visualization.
- Marking provided along the length to facilitate identification of tube position.
- Pilot balloon to check inflation & deflation of cuff
- ETO sterile and pyrogen free

Packing

- Sterile, Individually pouch packed in carton.

Gross: 5.0kg

Tracheostomy Tube - Cuffed & Uncuffed

Cuffed | ASM 702 C
Uncuffed | ASM 702 P

**PHTHALATE
FREE**

- Used to maintain a patent airway through tracheostomy and mechanically ventilate patients s Made from non-toxic, non-irritant, medical grade clear PVC
- Kink resistant, thin-walled, thermo-sensitive tube, softens at body temperature.
- Lockable obturator with facility to insert guide wires to facilitate intubation using the widely accepted Seldinger guide wire technique.
- Anatomically designed tube and obturator with extra smooth and curved distal end for atraumatic intubation and extubation.
- Smooth inside/outside surface for ease in intubation, extubation and suctioning.
- Kink resistant inflation tube to ensure patient safety during cuff inflation and deflation s Radio opaque line and markings provided to facilitate identification of tube position s Universal 15 mm connector at proximal end.
- E.T.O Sterile and Pyrogen free. For single patient use

Packing

- Sterile, Individually blister packed.
- Master Carton of 50.

Gross: 4.75kg

SIZES

3.5 mm, 4.0 mm, 4.5 mm, 5.0 mm, 5.5 mm, 6.0 mm, 6.5 mm, 7.0 mm, 7.5 mm, 8.0 mm, 8.5 mm, 9.0 mm

Suction Catheter Closed System (24 hrs / 72 hrs) Replaceable Catheter System

ASM 700CS

**PTHALATE
FREE**

- E.T.O Sterile and Pyrogen free. For single patient use.
- Used to maintain ventilation and oxygen therapy while suctioning in mechanically ventilated patients.
- Minimises the risk of Ventilator Associated Pneumonia (VAP)
- Made from non-toxic, medical grade PVC.
- Kit comes with 3 easily replaceable catheters, minimizing the need to replace entire suction system every 24-72 hrs.
- Catheter with lateral eyes, smooth tip and depth markings for maximum patient comfort.
- MDI port provides an effective, quick and convenient way of drug delivery.
- Irrigation port with one way valve allows lavage and irrigation of the suction catheter.
- On/off valve allows suction catheter tip to be isolated and creates an enclosed cleaning chamber.
- Transparent connectors and durable sleeve facilitates catheter manipulation and prevents infiltration of blood and sputum.
- 360° swivel elbow enables rotation for enhanced patient comfort and reduces torque.

Nasopharyngeal Airways

ASM 720

- Used to secure and open airways for patients in case of emergencies.
- Made from soft, non-irritant medical grade PVC.
- Anatomically designed with smooth round edges, thin wall and kink resistance for maximum patient comfort.
- E.T.O. sterile & pyrogen free. For single use only.

 - Box of 25; Master Carton of 200 pcs.
- Gross: 4.2kg

Guedel Airways / Oropharyngeal Airways

ASM 705

- Used to maintain an unobstructed oro-pharyngeal airway.
- Made from rigid, non-toxic medical grade PVC.
- Colour coded in-built bite blocks to avoid airway occlusion and biting of tongue.

SIZES			
Size	Colour Code	Size	Colour Code
000	-	2	Green

- Sterile individually packed in peelable pouch packed.
 - Box of 25; Master Carton of 200 pcs.
- Gross: 9.5kg

Catheter Mount

SS 758

- Compatible with all Breathing and Ventilator circuits.
- Double swivel connector and flexible tubing provides mobility and flexibility to the patient end of the circuit.
- The tubes are made of a special flexible co-polymer and have a minimal compliance with low dead space volume.
- The catheter mount is fitted with a double swivel connector.
- Each catheter mount has a 22 mm female / 15 mm male end to connect to the breathing system and 15 mm female end to connect to the endotracheal tube or laryngeal mask.

Packing

- EO Sterile/ Disposable/ Individual Packed.
 - Master Carton of 100 pcs.
- Gross: 5.5kg

HME Filter

SS 752

- Used in mechanically ventilated and laryngectomy patients to heat and moisturize the air and help prevent complications that arise when patients lose the ability to breathe through their nose and upper airway. Captures heat and moisture on expiration and returns it to the patient in inspiration.
- Suitable for spontaneously breathing patients with a tracheostomy tube.
- Electrostatic filter with 99.99% filtration capacity.
- Lightweight, compact design reduces circuit weights. Low resistance to flow reduces work of breathing.
- ISO standard 15 mm and 22 mm fitting connects to breathing circuits. Supplied clean and individually packaged.
- Available in adult and paediatric options.

Packing

- Individually Blister Packed.
 - Master Carton of 100 pcs.
- Gross: 6kg

Catheter Mount

SS 758

- Used for efficient oxygen administration to patient.
- Made from soft, non-toxic, medical grade PVC.
- Elastic strap and aluminum nose clip for proper adjustment of mask.
- Multi-channel tube ensures regular supply of oxygen even if the tube is accidentally kinked.
- Proximal end of tube provided with universal connector for easy connection with oxygen source.

Packing

- On- Sterile, individually packed in a polybag.
- Box of 100; Master Carton of 50.

Gross: 5.2kg

SIZES	TUBE LENGTH
Adult	210 cm (7ft)
Child	210 cm (7ft)

Nasal Oxygen Cannula

Twin Bore Oxygen Delivery Set

ASM 703 A

- Used for efficient oxygen administration to patients.
- Made from soft, non-toxic, medical grade PVC.
- Twin nasal tips ensure equal volume of oxygen to both nasal passages for greater patient comfort.
- Multi-channel tube ensures regular supply of oxygen even if the tube is accidentally kinked.
- Proximal end of tube provided with universal connector for easy connection with oxygen source.

Packing

- Non-Sterile, individually packed in a polybag.
- Master Carton of 100.

Gross : 6kg

SIZES	TUBE LENGTH
Adult	210 cm (7ft)
Child	210 cm (7ft)
Infant	210 cm (7ft)

Intubating Stylet

SS 753

- Specially designed nebulizer chamber with nebulization rate of approximately 3 cc in 10 minutes.
- Average particle size generation is approximately 2 microns.
- Complete kit consists of: Nebulizer mask, Nebulizer chamber and 210 mm Star Lumen Tube.
- Sizes : Adult and paediatric.

Packing

- Sterile, individually packed in blister pack
- Master Carton of 100.

Suction Catheters

Twin Bore Oxygen Delivery Set

Plain / Normal | ASM 700 P
Thumb Control | ASM 700 A TC
Finger Tip Control | ASM 700 B FT
Atraumatic | ASM 700 T

- Used for removal of secretions from the patient's mouth, trachea and bronchial tube.
- Made from non-toxic, non-irritant medical grade PVC.
- Lateral eye at distal end for effective suctioning.
- Proximal end of tube provided with universal connector for easy connection with suction source.
- Optional: Thumb controlled, Finger tip controlled, Atraumatic tip.
- Available with graduation

Packing

- Sterile, individually packed in blister pack.
 - Box of 100; Master Carton of 1000.
- Gross : 18.5kg

Intubating Stylet

SS 753

- Used along with Endotracheal Tube to aid during intubation.
- Smooth plastic coated with flexible malleable aluminum design, allows the stylet to be easily adapted to any desired shape.
- Soft distal tip to reduce the possibility of intubation damage.
- Smooth surface for ease in introduction and removal from ET tube
- Clean packed.

Packing

- Individually pouch packed.
- Inner Box of 10 pcs.
- Master Carton of 200 pcs.

Gross : 6.6kg

SIZES

6 Fr/Ch (2.0 mm)

10 Fr/Ch (3.3 mm)

14 Fr/Ch. (4.7 mm)

Visionary Bougie Vented

SS 755

- Provides rigidity to endotracheal tubes to facilitate endotracheal intubation.
- Ultra smooth surface for low friction.
- Atraumatic angled tip for ease of intubation and to minimise risk of patient trauma.
- Marking provided along the length to facilitate identification of tube position.
- Angled tip for ease of intubation.
- Vented lumen for oxygen feed

Packing

- Sterile, individually packaged in easy to open sachets.
- Master Carton of 10 pcs.

Gross : 0.5kg

SIZES

FG	6	10	15

Paul's Tracheal Culture Bottle

Child/Adult

SS 757

**PTHALATE
FREE**

- Used along with Endotracheal Tube to aid during intubation.
- Secure, sterile bottle ensures accuracy of culture tests.
- Vacuum control connector allows easy and quick sampling procedure.
- Graduated suction tube allows a reading for depth of intubation

Packing

- 25 pcs per inner box.
 - 200 pcs per Master Carton
- Gross : 5kg

Thoracic Trocar Catheter

ASM 1001

- Used for rapid non-operative pleural and chest drainage.
- Made from non-toxic, medical grade PVC.
- Catheter is snugly fixed over the trocar, and provided with large smooth eyes for efficient drainage.
- Smooth taper shape tip.
- Markings at 5, 10, 15 and 20cm from the distal end to measure depth of placement.
- Proximal end fitted with taper shape connector for easy connection to drainage bottle/bag

Packing

- Sterile, individually packed in peelable pouch pack.
- Box of 10; Master Carton of 100.

Gross : 8.5kg

**PHTHALATE
FREE**

Thoracic / Chest Drainage Catheter

ASM 1002

**PHTHALATE
FREE**

- Used for post-operative drainage after cardio thoracic surgery.
- Made from non-toxic, medical grade PVC.
- Smooth and round open distal end with large eyes for maximum drainage.
- Catheter is marked at every 2 cm from the last eye to ascertain the depth of placement.
- Proximal end fitted with taper tongue connector for better forceps grip and smooth penetration.
- Optional: Also available in right angle.

Packing

- Sterile, Individually packed in peelable pouch.
- Box of 20; Master Carton of 200

Gross : 11.5kg

Steri-ADK

Abdominal Drainage Kit

ASM 1011

- Used for abdominal drainage.
- Made from non-toxic, medical grade PVC.
- Smooth and round distal end with large atraumatic eyes for efficient drainage.
- Radio-opaque line provided on the catheter for x-ray visualization.
- Marked at every 2cm from the cast eye to ascertain the depth of placement.
- Proximal end provided with universal taper connector for easy connection to drainage bag.
- 2000ml capacity bag with graduated scale

Packing

- Box of 5; Master Carton of 50pcs.
- Box of 10; Master Carton of 100.

Gross : 9.7kg

Steri-Drain

Chest Bag / Water Sealed Drainage System

ASM 1002

- Used for collection of wound and empyema.
- Made from non-toxic, non-irritant PVC.
- 1000ml capacity bag with graduated scale.

Packing

- Individually packed in a polybag.
- Box of 10; Master Carton of 100pcs.

Gross : 8.4kg

Chest Drainage System /Under Water Sealed Drainage System

ASM 1043

- Used to remove air (Pneumothorax) or fluid (Pleural Effusion, blood) or pus (empyema) from the intrathoracic space.
- Made from non-toxic medical grade PVC.
- Bottle with graduation markings to determine precise drain volume.
- Clear initial level markings for easy and correct usage.
- Suction port to connect bottle with suction.
- Universal connectors and kink-resistant tubings for smooth unrestricted flow.
- Hangers available for ease of use.
- Available in 500ml capacity (single chamber), 1000ml capacity (single chamber) and 2000ml (double chamber).

Packing

- Individually packed in Inner Carton.
- Master Carton of 10 pcs.

Gross : 11 kg

SIZES	
Single Chamber	500 ml
Single Chamber	1000 ml
Double Chamber	2000 ml

Yankaur Suction Set

With Standard Handle

ASM 712

- Used for removal of secretion and blood pass during surgical procedures.
- Made from non-toxic, non-irritant PVC.
- Flexible kink resistant tube provides uninterrupted flow during suction.
- Soft connectors at both ends of the tube for easy connection.
- Available in Standard / Round Tip Handle.
- Suitable for use with or without vent control facility.

Packing

- Sterile, individually packed in peelable pouch pack.
- Box of 10; Master Carton of 100

Gross : 19.2 kg

SIZES

SIZES	
Tube Length	2500mm (2.5mtr.)
Tube Diameter	9mm

Surgical Blade With Handle

ASM 1006

- Disposable, Sterile, ready to use.
- Fitted on handle No. 3 or 4.

Packing

- Pack of 20. Carton of 200pcs.

Gross : 1.78 kg

SIZES

10, 11, 12, 15, 20, 21, 22, 23, 24

Stericiser

Breathing Exerciser

ASM 1031

- Used as a breathing exerciser to increase lung capacity in patients with decreased lung function.
- Made from rigid, non-toxic medical grade PVC.
- Specially designed with 3 stage chambers to provide more efficient exercise to patient at a step up basis.
- Device comprises a base and a central part with a 3 stage chamber, each containing spheres of different sizes, weight and colour.
- Provides lung exercise on a step-up basis, as the spheres rise proportionately to the breathing effort exerted by the patient.
- Can be dis-assembled into parts for cleaning and disinfection.
- Non-sterile.

Packing

- Sterile / Disposable / Individual Printed Box Packing.
- Box of 1/Master Box of 50.

Gross : 11.3 kg

SIZES						CAPACITY
FG	10	12	14	16	18	500 ml

- #ARRYY"AG" OC
- Optional: Other customized kits available for Gynecology & Obstetrics, General Surgery, Orthopaedics, Urology

Packing

- Sterile, Individually packed in peelable pouch.
- Box of 10.

Surgeon Cap ASM 1204

Surgeon Cap ASM 1206

- Used to protect against contamination from the head/hair.
- Made from non-woven fabric.
- Provided with stitched interlocking and elastic strip on the back for proper grip.
- Optional: Available in Blue /Green colour.

Packing

- Individually packed.
 - Box of 100; Carton of 1800pcs.
- Gross : 9.51kg

Surgical Gown ASM 1202

- Used as a protective barrier to prevent cross-contamination.
- Made from soft non-woven fabric with stitched interlocking.
- Light weight, with soft elastic cuff and tie straps for better fitting and complete body wrap.

Packing

- Individually packed in polybag.
- Box of 50.
- Master Box of 100kg.

Shoe Cover ASM 1210

- Used to protect against contamination from footwear.
- Made from non-woven fabric/polyethylene, on a fully automatic ultrasonic sealing machine.
- Elastic strip for proper grip

Packing

- Individually packed in polybag.
 - Carton of 2000 pairs. Pack of 25 pairs
- Gross : 15.4 kg

Surgeon Face Mask ASM 1208

- Used as a protective barrier to prevent cross-contamination.
- Made from non-woven fabric and available in two-layers and three - layers configuration.
- Ultrasonically welded layers for efficient bacterial filtrations.
- Provided with a nose clip to prevent fogging of spectacles and to maximize filtration efficiency.

Packing

- Individually packed.
 - Box of 100; Carton of 4000.
- Gross : 19.57kg

Surgical Gloves ASM 1000

- Used for protection during general medical /surgical procedures.
- Made from natural latex rubber.
- Firm beaded cuffs, micro rough finish for better grip.
- Bent fingers for greater comfort.
- Lightly powdered

Packing

- Carton of 1000 pairs. Sterile
- Gross : 23.3kg

Steripore Softpeel

Silicon Gel Tape

SS 106 SP

- Used for fixation of dressing, tubing, etc on patients with delicate / fragile / recuperating skin.
- Ideal for neonates, geriatrics, burn and plastic surgery patients.
- Made from perforated film.
- Special Silicon adhesive gel ensures smooth, soft peel, without irritation or skin damage.
- A one-of-its' kind product, it aids faster healing and prevents scar formation.
- Breathable and water proof.

Packing

- Individually unit packed in printed duplex box.
 - Carton of 100 pcs.
- Gross : 13.1kg

Steripore / Steripore+

Microporous Tape

SS 106

- Used for fixation of dressing, tubing, osteomy pouches etc on patients.
 - Made from micro-porous non-woven fabric.
 - Uniformly coated with hypoallergenic, non-toxic, non-irritant adhesive.
 - Easy to peel off without causing discomfort or skin irritation.
 - High porosity allows skin to breathe, and high resistance to water and vapour prevents the tape from peeling off.
 - Suitable on sensitive body parts, for infants and adults.
- Manufactured as per British Pharmacopia (BP) guidelines

Packing

- Carton of 48 Boxes
- Gross : 13.1kg

Manual Vacuum Aspiration (MVA Kit)

Double Valve/Single Valve

ASM 805

- Used for Manual Aspiration procedure (Medical termination of pregnancy).
- Made from medical grade polypropylene.
- Kit consists of MTP Syringe, Karman Cannula, lubricating oil.
- The MTP Syringe provides high vacuum suction during abortion procedure.
- Smooth cannula with rounded tip and smooth eyes for atraumatic cannulation.
- Available in single valve and double valve syringe.
- Karman Cannula SMD 800 available separately as well in size 4mm - 12mm.

Packing

- Sterile, individually packed in peelable pouch pack.
- One Pack of Single Valve Syringe consist of: 1 Single Valve Syringe, Lubricating Oil and 6, 7, 8, 10mm Cannula.
- One Pack of Double Valve Syringe consist of: 1 Double Valve Syringe, Connectors, Lubricating Oil and 4, 5, 6, 7, 8, 9, 10, 12mm Cannula
- Complete Pack is finally Packed in a Box.
- Carton of 50 Box.

Gross : 24kg

Cytobrush /Endocervical Brush

Double Valve/Single Valve

ASM 804

- Used for Cervical Papanicolaou (Pap) smear screening.
- Consists of Brush and the Wooden spoon Strip.

Packing

- Sterile, individually packed in peelable pouch pack.
 - Box/Pack of 50. Carton of 500
- Gross : 7.5kg

Infant Mucus Extractor

ASM 803

- Used for aspiration of secretion from oropharynx in newly born babies.
- Made from non-toxic, medical grade PVC.
- Transparent chamber for visual examination of the content.
- Round open tip for atraumatic intubation, and proximal end with funnel connector for easy connection to the suction equipment.
- Optional: available with filter and without filter models

Packing

- Sterile, individually packed in peelable pouch pack.
 - Box of 20; Master Carton of 400.
- Gross : 13.5kg

SIZES	
Chamber Capacity	25ml
Catheter Size	10 FG

Umbilical Cord Clamp

ASM 801

- Used for clamping the umbilical cord of newly born babies.
- Made from non-toxic, medical grade PVC.
- Permanent locking system to prevent clamp reopening.
- Finger grip to facilitate easy holding and locking of the clamp

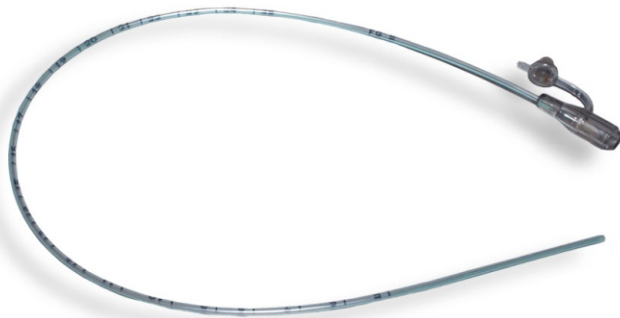

Packing

- Sterile, individually packed in peelable pouch pack.
- Box of 100; Master Carton of 2000.

Gross : 10.5kg

Umbilical Catheter

ASM 1103

- Used to access the umbilical vessels of pre-mature or newly - born babies.
- Made from non-toxic, medical grade PVC.
- Smooth round tip for atraumatic insertion and well-finished surface facilitate smooth passage in the vein.
- Markings at every cm to ascertain depth of insertion, radio opaque line ascertain position during scans.
- Proximal end provided with Luer female connector for easy connection to the I.V. therapy equipment.

Finger Cot

Product Code : F-02 Size : Universal

- Epoxy-coated malleable aluminum, ensures good fitting and rigid immobilization, Can be customized as per patient's need
- U design ensures full protection in injuries and burns.
- Well ventilated, good patient comfort, high patient, compliance.
- Hook loop fasteners for excellent grip, close fitting, easy application and removal.
- Lined with Ethafoam with high cushioning coefficient for excellent patient comfort.
- Odorless, closed foam, can be easily cleaned and maintained.

Finger Extension Splint

Product Code : F-03 Size : Universal

- Epoxy coated malleable aluminum used ensures good tilting and rigid immobilization, can be customized and per patient's need.
- U design ensures full protection in injuries and burns. Well ventilated, good patient comfort, high patient compliance.
- Lined with ethafoam with high cushioning coefficient for excellent patient comfort.
- Hook loop fasteners for excellent grip, close fitting, easy application and removal.
- Odorless, closed foam, can be easily cleaned and maintained.
- Sleek, simple and light in weight offers better patient compliance.

Frog Splint

Product Code : F-04 Size : S, M, L

- Made from annealed aluminum for extra softness and extra malleability.
- Ethafoam padding carries advantages like hypoallergenic, inert,
- Odorless, non-absorbent, easy to clean and maintain.
- Maintains both interphalangeal joints in natural functional position.
- Epoxy-coated malleable aluminum used ensures good fitting and rigid immobilization, Can be customized as per patient's need.
- Well ventilated, good patient comfort, high patient, compliance.
- Sleek, simple and light in weight offers better patient compliance
- Sleek, simple and light in weight offers better patient compliance.

Thumb Spica Splint

Product Code : F-06 Size : Universal

- Made of breathable 3 layered PUF fused fabric with excellent aesthetics, comfort and a long life.
- Removable and malleable splint ensure customized abduction of the thumb for better pain relief and healing.
- Provides excellent Immobilisation and stability to CMC & MCP joints.
Sleek and comfortable ensures better patient compliance.
- Allows full finger flexibility while preventing wrist rotation.

Mallet Finger Splint

Product Code : F-05 Size : Universal

- Sleek, simple and light in weight.
- Highly practical design in maintaining the hyper extension position of the distal interphalangeal joint.
- Degree of hyper extension can be controlled according to the need.
- Can be conveniently removed and reapplied.
- Cost effective.
- Ethafoam padding carries advantages like hypoallergenic, inert, odorless, non-absorbent, easy to clean and maintain.
- Made from annealed aluminum for extra softness and extra malleability.

Abdominal Support

Product Code : A-01 Size : S, M, L, XL, XXL

- Light weight and thin construction, does not peep through the clothes improves patient compliance.
- Extra porous monofilament improves ventilation and comfort of the patient.
- Broad hook and loop tape panel offers better holding and size adjustability.
- Optimal compression, tones up abdominal muscles following surgery, CS or delivery.
- Special nylon reeves prevent rolling over of belt.

Tummy Trimmer/ Abdominal Belt

Product Code: A-03 Size: S, M, L, XL, XXL

- Extra porous three panel webbing improves ventilation and comfort of the patient.
- Broad hook and loop tape panel offers better holding and size adjustability.
- Optimal compression, tones up abdominal muscles following surgery, CS or delivery.
- Optimal compression binds surgical incisions of abdomen & chest, improves healing.
- Holds the incision, provide analgesic effect during sudden movements or coughing.

Lumbo Sacral Belt

Product Code: A-05 Size: S, M, L, XL, XXL

- Flexible back splitting on application takes the body shape for excellent immobilization.
- Highly porous monofilament elastic improves ventilation and patient comfort.
- Heat resistant rubber with high modulus of elasticity improves life of the belt.
- Double pull mechanism ensures strong fastening for secure fitting around the waist and better immobilization.
- Large hook loop panel allows controlled compression, and flexibility in sizing.
- Comfortable immobilization provided by the belt makes it an ideal belt for every day use in mild back ache.

Rib Belt

Product Code : A-09 Size : S, M, L, XL, XXL

- Additional Ethafoam pad offers a strong localized grip at the fracture site, improves immobilisation and healing.
- Strong orthopaedic webbing, holds and protects surgical incisions during coughing bouts and alleviates pain.
- Large hook loop panel allows controlled and comfortable compression, and flexibility in sizing.
- Extra porous material ensures good ventilation and patient comfort.

Lumbo Support Uni

Product 60de : A-15 Size : Universal

- Made from heat resistant rubber with high elasticity ensuring adequate compression.
- Anatomically pre shaped semi rigid splints ensure comfortable immobilization and correct posture.
- Well tapered back panel offers better fitting.
- Sleek design provides for excellent aesthetics.
- Very large fastening surface ensures universal sizing.
- Loop fasteners ensure ease of application and removal.

Chest Binder

Product Code : A-11 Size : S, M, L, XL, XXL

- 50 mm thick PUF pad hold and binds the fractured sternum without compromising on patient comfort
- Strong elastic band gives good grip and helps in equidistribution of pressure
- Reduces post operative pain and discomfort.
- Facilitates phlegm expulsion after cardio thoracic surgery.

Ash Brace (Hyper Extension Brace)

Product Code : A-12 Size : S, L

- Corrosion resistant aluminum channel frame offers improved durability, wide flexibility, dependable sturdiness and appealing aesthetics.
- Shock absorbing ethafoam covered sternal pad ensures better comfort with reduced pressure on pubis and chest.
- Anatomical, broad, rigid back pad relieves the load on the anterior vertebra.
- Customizable, using easy slide and screw adjustment mechanism.
- Malleable horizontal bar, ensures close contoured fitting.

LumBopore

Product 60de : A-04 Size : S, M, L, XL, XXL

- Made from monofilament stripped elastic which being light in weight and highly porous provides better patient comfort and convenience.
- Anatomical shape offers perfect fitting.
- Pre shaped semi rigid integrated stays provide correct support to the lumbo -sacral region with effective immobilization.
- Spacer fabric offers better cushioning enhancing patient comfort.
- Double pull elastic mechanism offers extra compression and ensures firm grip to the L.S. region.
- Broad hook-loop panel ensures flexibility in sizing, easy application and quick removal
- Malleable horizontal bar, ensures close contoured fitting.

Lumbo Flexi Pore

Product Code : A-08 Size : S, M, L, XL, XXL

- **Monofilament stripped elastic**
 - a. Light in weight.
 - b. Highly porous, more ventilation, improves patient comfort.
 - c. Long life
 - d. Better compression.
- **Anatomical shape**
 - e. Perfect fitting.
 - f. Better immobilization.
 - g. More comfort.
- **Pre shaped semi rigid strips**
 - h. Relieves muscular stress due to wrong posture.
 - i. Effective immobilization.
- **Double pull elastic mechanism**
 - j. Extra compression.
 - k. Effective splinting action.
- **Broad hook-loop panel**
 - m. Ensures easy application and quick removal.
 - n. Better sizing flexibility.

Contoured L.S. Support

Product Code : A-13

- **Anatomically contoured rigid splints**
 - a. Maintain the natural low back curve
 - b. Alleviate pain due to mechanical stresses
 - c. Gets rid of postural fatigue
 - d. Ensure adequate back reinforcement for perfect immobilization
- **Aluminium Splints**
 - a. Malleable, and customizable offers accurate support.
 - b. Light in weight, offer better patient compliance.
 - c. Contoured and rigid splinting provides immobilization in the neutral position to stabilize the vertebral fractures.
- **Double pull mechanism**
 - a. Ensures strong fastening for secure fitting.
 - b. Better immobilization.
 - c. Prevents belt slippage.
- **Ethafoam back pad**
 - a. Offers high cushioning even in thin sections.
 - b. Provides better patient comfort, without compromising the immobilization.
- **Large hook loop panel**
 - a. Allows controlled compression.
 - b. Flexibility in sizing
 - c. Easy application and removal of the belt.

Taylor's Brace Short/Long

Product Code : A-13 Size : Universal

- Durable orthosis with two rigid upright Para-spinal bars, which maintain the spine in neutral position while permitting requisite movement.
- All the vertical as well as horizontal malleable aluminum splints can be customized to provide perfect shape for excellent immobilization and comfort.
- Light weight splints with good cushioning improves comfort and patient compliance.
- Unique design allows wearing and tightening of the brace by the patient without the aid of another person.
- Clavicle straps correct the shoulder posture while ensuring better fit.
- Available in two heights to ensure better Dorso-lumbar immobilization.
- One universal size fits all due to large hook loop panel.
- Double elastic panel allows easy application and removal of the brace.

Collar Soft (Firm Density)

Product Code : B-01 Size : S, M, L

- Made of very high density (60 kg.lm3) P. U. foam offering adequate immobilization even without any reinforcement.
- Covered with hypoallergenic cotton stockinet for better patient comfort ensuring no allergy or rash even to sensitive skin.
- Perforated collar body providing air circulation for optimum patient comfort and compliance.
- Fawn colored covering matches skin color for better aesthetics.
- Hook-Loop closure tape ensure snug fitting around neck, easy application and quick removal.

Cervical Orthosis (Philadelphia)

Product Code : B-05 Size : S, M, L

- Pre-formed chin improves immobilization, provides for rest of chin, which ensures comfort.
- Anatomical shape offers perfect immobilization.
- Minimal contact of the neck (balloon design,) allows use in burn or trauma patients.
- Hypoallergenic material ensures no rash no allergy, even on prolonged use.
- Tracheotomy opening, allows compatibility with the use of endo-tracheal tube it also improves air ventilation and patient compliance.
- Two piece design for easy application with firm occipital support. It provides option for varying rigidity.
- Light weight helps in better patient compliance.
- Made from non absorbent foam, ensures easy cleaning and maintenance.

Cervical Collar Soft

Product Code : B-07 Size : S, M, L

- Soft polyurethane
 - a. Provides unmatched comfort
 - b. Used as prophylactic collar
 - c. Reduces pain and provides comfortable support during traveling.
- Covered with hypoallergenic cotton stockinet.
 - a. Better patient comfort
 - b. No allergy or rash even to sensitive skin.
 - c. Better compliance
- No hard, bony reinforcement.
 - a. Improves patient comfort,
 - b. Particularly recommended for geriatric patients
 - c. Excellent for prolonged use
 - d. Excellent for geriatric use.
- Anatomical design
 - a. Uniform support to the mandible
 - b. Effective action and better fit
 - c. Better comfort
- Perforated collar body
 - a. Improved ventilation, more patient comfort
 - b. Better compliance.

Cervical Pillow Regular

Product Code : B-08 Size : Universal

- Soft foam with good resilience ensures comfortable yet effective support to the neck.
- Scientific design maintains the neck in slight hyperextension, provides optimal muscle relaxation and proper support to head and neck during sleep.
- High density PU foam guarantees longer functional life of the pillow.
- Plush covering provides soft feel and good aesthetics to the product.

Cervical Collar Soft with Support

Product Code : B-02 Size : S, M, L

- High density PU foam ensures proper support, better immobilization and improves life of the collar.
- High density of PU foam also provides better cushioning, comfort and patient compliance.
- Rust proof eyelets provide proper air ventilation and patient comfort.
- Covered with soft hypoallergenic cotton stockinet which is dermophillic.
- Reinforced with LDPE sheet with thick round edges to provide good immobilization.
- Stockinette of high GSM directly improves the overall life of the collar.
- Manufactured in controlled clean environment, ensures dust free and low bio burden product.

Cervical Collar (Hard Adjustable Height)

Product Code : B-03 Size : S, M, L

- Scientifically designed, ensures good immobilization and patient comfort.
- Adjustable height ensures a secure fit & better immobilization.
- Multiple holes aides in better ventilation, provide comfort during prolonged use and hence better patient compliance.
- High quality P. E. sheet ensures rigid support and long life to the product.
- Edge padding by Ethafoam provide high cushioning and comfort, and long functional life.
- Light in weight, improves patient compliance.
- Excellent Workmanship improves aesthetics and patient compliance.

Pouch Arm Sling (Tropical)

Product Code : C-01 Size : S, M, L, XL

- Smart, sleek and open design, popularly called as Tropical design, does not cover the chest, better suited for hot and humid climates.
- Three-layered PU bonded fabric offers:
 - a. Soft feel and plush looks through the top layer.
 - b. Comfortable cushioning through the middle Polyurethane layer.
 - c. Inner layer ensures non-tearability of the fabric.
- Single touch opening and closing of the buckle ensures easy application and removal.
- Adjustable ethafoam shoulder pad can be placed at the point of maximum pressure for excellent patient comfort.
- Adjustable sling allows adjustment in the angle of the elbow, and flexibility in sizing.

Pouch Arm Sling (Baggy)

Product Code : C-01 Size : S, M, L, XL

- Standard design, supports and covers the arm completely.
- Large enough to accommodate arm with bulky casts or bandages.
- Three-layered PU bonded fabric offers:
 - a. Soft feel and plush looks through the top layer.
 - b. Comfortable cushioning through the middle Polyurethane layer.
 - c. Inner layer ensures non-tearability of the fabric.
- Single buckles for opening and closing ensures easy application and removal.
- Adjustable ethafoam shoulder pad can be placed at the point of maximum pressure. Provides excellent relief and comfort.
- Adjustable sling ensures adjustment in the angle of the elbow, and flexibility in sizing.

Universal Shoulder Immobiliser

Product Code : C-02 Size : S, M, L, XL

- Made of durable 3 layered PU. bonded fabric, which provides
 - a. Attractive looks
 - b. Non tearability
 - c. Wrinkle free properties.
- Two piece design offers higher immobilisation, easy application and removal.

Clavicle Brace With Buckle

Product Code : C-04 Size : S, M, L

- Hypoallergenic cotton stockinet cover ensures no rash.
- Claw buckles ensures no loosening with time.
- Buckle pad ensures protection from any injury that might occur from buckle bite.
- Soft PU foam padding in underarm straps ensure comfort and better tolerance.
- Figure of eight design with lateral vector ensures linear union of the clavicle bone.

Elastic Shoulder Immobiliser

Product Code : C-03 Size : S, M, L, XL

- Scientific design to provide six-way Immobilisation.
- Well ventilated and comfortable to patient.
- Sleek and smart.
- Can be used even in case of shoulder injuries, where other designs are contraindicated.
- More effective when the patient is confined to bed.

Clavicle Brace With Velcro

Product Code : C-05 Size : S, M

- Reverse buckle fastening with book loop tapes provides wide flexibility in positioning.
- Padded, soft velvet shoulder and underarm straps ensure comfort and better tolerance.
- Ultra sleek look enhances patient compliance
- Figure of eight design with lateral vector ensure linear union of the clavicle bone.

Cast Shoe

Product Code : C-08 Size : S, M, L

- Made from water proof materials, protects the plaster cast of the foot from soiling, wetting and mechanical damage.
- Tapered sole, not only restores the gait to normal but ensures better balance and early ambulation of the patient on plaster cast of the foot.
- Light weight design offers better patient compliance.
- Hook loop closure, ensures flexible sizing, easy application and removal of the shoe.

Ankle Binder

Product Code : D-01 Size : S, M, L, XL

- The sleeve is made of sturdy, seamless elasticized fabric which provides warmth, mild compression and improves healing.
- Elastic wrap in figure of eight improves ankle stability.
- Hook loop closures ensure controlled compression and pain relief.
- Double action design helps in prevention of inversion or aversion injuries.

Anklet

Product Code : D-03 Size : S, M, L, XL

- Made of sturdy, tapered seamless elasticized fabric which provides warmth, mild compression and improves healing.
- Bi layered. Cotton on the inside and nylon on the outside. Cotton is dermophilic, whereas nylon is strong and aesthetically better looking.
- Simple pull on application improves patient compliance.

Anklet Brace

Product Code : D-03 Size : S, M, L

- Offers triple stabilisation of a splint, lace and "figure of eight" strap.
- Made of strong, polyester matte fabric ensuring long life and appealing aesthetics.
- Anatomically designed, rigid PE splint ensures Immobilisation of both dorsi-flexion and plantar flexion.
- Lined on the inside by spacer fabric, which has high cushioning and comforting properties.
- Lace design for easy and comfortable fit.
- Medical lateral strap running in the form of "figure of eight" enhances immobilization to protect lateral ligaments.
- Sleek and light design can be used inside the shoe.
- Bilateral symmetric design: can be used for either ankle

F. Drop Splint with Acce

Product Code : D-17 Size : S, M, L, XL

- Made of durable and resilient polypropylene.
- Strong leaf spring action provides push required in the swing phase of the walk.
- Semi rigid construction provides support and stabilization in the hemiplegic foot.
- Anatomical shape, provides good weight distribution and maintains the foot in the dorsiflexion position, which helps in quick healing.
- Velcro closures and soft inner pad ensures comfortable and easy fit.
- Can be customized using hot air gun.

Elastic Knee Support

Product Code : D-08 Size : S, M, L, XL

- Strong aluminum splints provide rigid side splinting, but free flexion movement Open patella design helps release patellar pressure.
- Open design with dorsal Velcro fastening offers an advantage of easy application on swollen or asymmetric knees and to geriatrics. It allows customized compression, not possible in tubular products.
- Patellar cushion improves patient comfort and compression around the patellar region.
- Designed with a large dorsal opening ensures no buckling and no vaso constriction.

Knee Cap

Product Code : D-03 Size : S, M, L

- a. Ensures dermophilic interphase with the skin,
- b. More comfort
- c. Better patient compliance.
- Bilayered, nylon on the outside
 - a. Long life
 - b. Excellent aesthetics
 - c. Color fastness.
 - d. Better comfort
- Four way stretchability
 - a. Good grip and compression
 - b. Snug fitting
 - Double layered
 - a. Retains body heat effectively.
 - b. Provides therapeutic warmth
 - c. Quicker healing
 - Tapered shape and unique weave
 - a. Uniform compression even on uneven limb surface.

Knee Brace Short Type

Product Code : D-13 Size : S, M, L, XL

- Same as Knee Brace Long Type

Knee Cap (with Rigid Hinge)

Product Code : D-06 Size : S, M, L, XL

- Nylon hinges provide rigid side splinting but free flexion movement.
- Made of sturdy, tapered seamless elasticized fabric which provides warmth, mold compression and improves healing.
- Bi layered. Cotton on the inside and nylon on the outside. Cotton is dermophilic, whereas nylon is strong and aesthetically better looking.
- Anti tourniquet effect, ensures no constriction to blood flow, on the hand and better grip of the product to the body on the other.

Knee Cap (Open Patella)

Product Code : D-07 Size : S, M, L, XL

- Made from high quality Nylon and spandex yarn which ensures four-way compression.
- Seamless tubular tapered shaped offers snug and comfortable fitting.
- Open Patella design relieves patellar pressure.
- Soft Nylon-spandex combination provides mild-immobilization and warmth to the inflamed knee.
- Special weave of elastic threads running spirally in Nylon lock matrix ensures uniform compression even in uneven limb surface.
- Provides firm support and gentle compression over the knee cap.

Knee Cap (with Flexi Hinge)

Product Code : D-07 Size : S, M, L, XL

- Bi-layered---cotton on the inside
 - Ensures dermophilic interphase with the skin,
 - More comfort
 - Better patient compliance.
- Bi-layered---nylon on the outside
 - Long life
 - Excellent aesthetics.
 - Color fastness.
 - Better comfort.
 - Flat Flexi Hinges
 - Poly axial hinge movement
 - Lateral support to weak knees
 - No rolling down of the product.
 - Free flexion movement.
 - Two layered
 - Enclosed air space, retains body heat effectively.
 - Provides therapeutic warmth.
 - Rubberized over lock covering
- Provides clean edge of the product
 - Ensures no vasa constriction.

Rom Knee Brace

Product Code : D-10 Size : Universal

- Range of motion 0-135° flexion and 0-75° hyperextension with an interval of 7.5°.
- Ensures immobilization at any angle and motion between any two angles.
- Universally acceptable locking with easy pin insertion.
- Pin locking with transparent disk for safety.
- Convenient design, quick application.
- Special bonded fabric for lining which has high cushioning coefficient, provides a good grip of the product to the leg.
- Universal design, one size fits all.

Knee Brace Long Type

Product Code : D-11 Size : S, M, L, XL

- Anatomically contoured back splints ensure rigid immobilization.
- Six straps of hook loop fasteners help in secured fitting & good immobilization.
- Strong aluminum lateral splints provide rigid lateral stabilization.
- Patellar opening releases patellar pressure ensuring patient comfort.
- PUF fused strong fabric offers perfect cushioning for enhanced patient comfort and ensures long life of the product.
- Raised fabric provides excellent feel and aesthetics to the product.
- Elasticized, removable patellar strap holds the patella in position and ensures secure immobilization of the knee joint.

Tennis Elbow Support

Product Code : D-10 Size : S, M, L

- Made out of breathable 3 layered PUF fused fabric with excellent aesthetics, comfort and a long life.
- Reverse buckle mechanism ensure strong grip and firm yet comfortable compression.
- Silicon pad interface improves impact and vibration absorption.
- Soft silicon projections improve proprioception, healing and prevention of the recurring injury.
- Can be used as main line of treatment as well as in prophylaxis.
- Smart and sporty aesthetics.

Elastic Wrist Splint

Product Code : D-01 Size : S, M, L

- Made of strong and porous, high quality elastic.
- Removable and malleable splint helps in customized fitting and achieving required degree of dorsi-flexion.
- Built in opening for thumb abduction for better pain relief and healing
- Provides adequate compression, support and immobilization.
- Maintains the wrist in functional position.

Wrist Brace With Double Lock

Product Code : E-05 Size : S, M, L

- Made from strong, striped, elastic with monofilament nylon, a has excellent porosity for air ventilation and patient comfort.
- Strong elastic with excellent compressive strength, supports, protects and provides requisite immobilization of the wrist.
- Double locking with hook loop tape ensure better fitting and universal sizing.

Cock Up Splint Half (Static)

Product Code : D-08 Size : Universal

- Open design, well ventilated, good patient comfort, high patient compliance.
- Made from epoxy-coated malleable aluminum, degree of dorsiflexion can be customized as per patient's need.
- Lined with Ethafoam with high cushioning coefficient for excellent patient comfort.
- Anatomically designed, to reach the palmar crease.
- Allows free movement of the fingers.
- Multiple hook loop fasteners for excellent grip, close fitting, easy application and removal.
- Odorless, closed foam, can be easily cleaned and maintained.

Elbow Support

Product Code : E-11 Size : S, M, L, XL

- Made from high quality Nylon and spandex yarn offering four way compressions.
- Seamless tubular tapered shape gives snug and comfortable fit.
- Special Nylon spandex yarn combination provides mild compression and therapeutic warmth to the inflamed elbow.

Wrist & Forearm Splint

Product Code : D-03 Size : S, M, L

- Made of breathable 3 layered PUF fused fabric with excellent aesthetics, comfort and a long life.
- Removable and malleable splint helps in customized fitting and achieving required degree of dorsi-flexion.
- Long length of the brace provides enhanced immobilization to wrist or forearm and pain relief.
- Abuts the Palmer crease to allow free hand and finger movement.
- Maintains the wrist in functional position.

Wrist Brace With Thumb

Product Code : E-06 Size : Universal

- Made from strong, striped, elastic with monofilament nylon has excellent porosity for air ventilation and patient comfort.
- Strong elastic with excellent compressive strength, supports, protects and provides requisite immobilization of the wrist.
- Allows free and natural movement of the thumb and fingers.
- One size fits both right and the left hand.
- Anatomical thumb opening is designed for slight abduction and comfort of the thumb.

Knee Support Hinged (Neoprene)

Product Code : J-10 Size : S, M, L, XL

- Rigid side splinting ensures full weight bearing.
- Bi axial hinge construction mimics the natural knee joint to support the cruciate ligament at all flexion angles.
- Open patella design with patellar buttress relieves patellar pressure and positions it.
- Four way stretchable fabric gives a controlled and comfortable compression in various positions of the knee.
- Anti tourniquet effect, ensures no constriction to blood flow, on one hand and better grip of the product to the body on the other.
- Anatomic construction ensures snug and a comfortable fit.

Knee Support Sportif (Neoprene)

Product Code : J-02 Size : S, M, L, XL

- Aesthetically designed
- a. Double colored
- b. Pleasing colored
- c. Used for sporting activity
- d. Can be worn fashionable Perforated at the rear
- a. Ventilation improves patient comfort
- b. No bunching on knee bending.
- c. Trendy
- Top and bottom bands
- a. Allow a controlled compression
- b. Better grip of the product to the body.
- c. Easier slide while wearing.
- Neoprene layer bonded with nylon fabric on both sides
- a. Four way stretch ability and compression.
- b. Ensures longer life.
- c. Appealing aesthetics with color fastness.
- d. Better body heat retention.
- e. Faster pain relief and healing.
- Anatomical shape
- a. Ensures good grip around the knee.
- b. No bunching on knee bending. Anterior patellar opening.
- a. Relieves patellar pressure.
- b. Positions patella in patellar dislocations

Knee (Neoprene)

Product Code : J-05 Size : Universal

- Neoprene layer bonded with nylon fabric on both sides
- a. Four way stretchability and compression.
- b. Ensures longer life.
- c. Appealing aesthetics with color fastness.
- Open design and triple hook-loop. closing system
- a. Ensure easy application and removal
- b. Customized compression and grip
- c. Better sizing flexibility
- d. Better fitting-
- Top layer with unbroken loops
- a. Offers a versatile closing system
- b. Firm grip
- Silicon patellar padding
- a. Proprioception ii.
- b. Massaging, increased blood flow, quick healing
- Thicker neoprene
- a. Better body heat retention
- b. Increased blood circulation
- c. Faster healing.

Abs Wrap (Neoprene)

Product Code : J-06 Size : Universal

- Neoprene layer bonded with nylon fabric on both sides
- a. Same as explained above
- B. UBL closing system
- a. Same as explained above
- Thicker neoprene
- a. Same as explained above
- Excellent workmanship
- a. Appealing aesthetics.
- b. Better compliance
- Better compression
- a. Tones up loose abdominal muscles after delivery.
- b. Improves waist line

Wrist Warp (Neoprene)

Product Code : J-04 Size : Universal

- Neoprene layer bonded with nylon fabric on both sides.
- a. Same as explained above
- Wrap around design and UBL closing system
- a. Ensure easy application and removal
- b. Customized compression and fitting
- c. Better sizing flexibility
- d. Better grip and support
- Anatomical thumb opening
- a. Provides slight abduction for better comfort of the thumb.
- b. Allow full finger dexterity but prevents wrist rotation.
- Thicker neoprene
- a. Same as explained above.

Wrist Brace With Thumb (Neoprene)

Product Code : J-03 Size : Universal

- Neoprene layer bonded with nylon fabric on both sides.
- a. Same as explained above
- Wrap around design and UBL closing system
- a. Ensure easy application and removal
- b. Customized compression and fitting
- c. Better sizing flexibility
- d. Better grip and support
- Anatomical thumb opening
- a. Provides slight abduction for better comfort of the thumb.
- b. Allows full finger dexterity but prevents wrist rotation.
- Thicker neoprene
- a. Same as explained above.

Skin Traction Set (PUF Liner)

Product Code : G-01 Size : Adult, Child

- Complete kit consisting of a foam liner or an adhesive lines, spreader block, crepe bandage and traction cord.
- Provides quick and convenient alternative for traction in trauma and emergencies.
- Non invasive method, saves trauma and cost.

Pelvic Traction Kit

Product Code : G-09 Size : S, M, L, XL, XXL

- Scientifically designed, can be conveniently used at homes or hospitals.
- Sturdy design for a long life and multiple use.
- Large hook loop area in the belt provides customized compression and flexibility in sizing.
- Oblique traction straps ensure the vector of the tractional force on to the LS vertebrae.
- Complete solution. Kit includes P.T belt, Spreader bar, Traction pulley and traction cord.

Leg Traction Brace

Product Code : G-05 Size : S, M, L

- Three-layered PU bonded fabric offers:
 - a. Soft feel and plush looks through the top layer.
 - b. Comfortable cushioning through the Polyurethane layer.
 - c. Inner layer ensures non-tear-ability of the fabric.
- Multiple hook loop closures ensure controlled compression, easy application and removal.
- Large skin contact area ensures no vaso-constriction.
- No adhesives required makes it convenient to use, ensures no skin peeling. Ideal for geriatric patients.
- No adhesives required ensure less allergies as compared to skin tractions with adhesives
- Hook loop fastening ensure no loosening, No requirement for frequent tightening.

Cervical Traction Kit (Sleeping)

Product Code : G-14 Size : Universal

- Ideal for cervical tractions in sleeping postures.
- Complete kit contains traction pulley, spreader bar, head halter and traction cord.
- Fit for home use as well as professional use.
- Versatile pulley is designed to fit most bed sides.
- Soft padded head halter provides a comfortable interface for the traction.

Cervical Traction Kit (Sitting)

Product Code : G-13 Size : Universal

- Ideal for cervical tractions in sitting posture.
- Complete kit contains traction pulley, spreader bar, head halter and traction cord.
- Fit for home use as well as professional use.
- Pulley is ergonomically designed to fit any door up to 40 mm.
- Soft padded head halter provides a comfortable interface for the traction.

Weight Cuff

Product Code : H-01 to H-03 Weight : 0.5 kg, 1 kg, 2 kg

- Available in three different weight categories of ½, 1 & 2.
- Provided with flexible cushiony wrap for use during physiotherapy and rehabilitation.
- Improves muscle strength, muscle tone and stamina.
- Can be ideally used for exercise program for paraplegics and invalids.
- Safe, can cause no accidents or injury.
- Can be used during the normal chores of life to improve muscle mass and strength.

Exercising Ball

Product Code : H-05 to For : Ortho, Neuro

- Two resistances available
- Ortho (hard) & Neuro (soft)
- Compatible for therma/hydrotherapy
- Inert PU materia, safe to use
- Excellent resilience, offers longer life.
- Effective in post injury rehabilitation of wrist and forearm.

ALLIED PRODUCTS

Compression Stockings (Mid Thigh)

Product Code : I-15 Size : S, M, L, XL

- Made from soft nylon yarn and spandex, offers good compression and a longer life.
- Dermophillic, materials ensure less allergies.
- Controlled and graded compression ensures faster return to normal circulation.
- Simple pull on application for patient convenience.
- Open toe design for longer life and convenient usage.
- Effective blood evacuation, relieves tired or aching legs due to long hours of standing, sitting or traveling.

Tourniquet

Product Code : I-01 Size : S, M, L

- Made from high quality hook and loop tape.
- Can withstand 5000 cycles of operations without losing peel strength.
- Available in pleasing color combinations.
- Rust free, strong buckle adds to comfort and life of the product.
- Excellent workmanship, without clumsy stitching.

Compression Stockings (Below Knee)

Product Code : I-16 Size : S, M, L, XL

- Made from soft nylon yarn and spandex, offers good compression and a longer life.
- Dermophillic, materials ensure less allergies.
- Controlled and graded compression ensures faster return to normal circulation.
- Simple pull on application for patient convenience.
- Open toe design for longer life and convenient usage.
- Effective blood evacuation, relieves tired or aching legs due to long hours of standing, sitting or traveling.

Walking Stick (Soft Top Handle)

Product Code : L-07

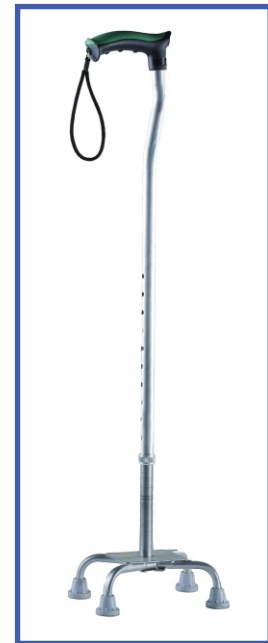

- Made out of sturdy Aluminum
- a. Light weight
- b. Good weight bearing
- c. Convenient handling
- PU Coated
- a. Perfect aesthetics
- b. Long life of the coating
- c. Available in multiple colors
- Moulded PP body
- a. Anatomical shape
- b. Comfortable grip
- Etafoam top
- a. Soft and cushiony
- b. Can be conveniently used for extended hours.
- c. Comfortable in high weight bearing
- d. Especially suitable for geriatric patients

Walking Stick (L Type)

Product Code : L-08

- Made out of sturdy Aluminum
- a. Same as Walking Stick Soft Top
- PU Coated
- a. Same as of Walking Stick Soft Top
- A very special Pd
- a. See details in Pods
- Excellent workmanship
- a. Good functioning
- b. Easy size customization
- c. Good aesthetics L type
- ABS Handle
- a. Anatomical shape
- b. Comfortable grip
- c. Nice to touch

Walking Stick Quadripod

Product Code : L-12

- Made out of sturdy Aluminum
- a. Same as Walking Stick
- Wide Quadri base
- a. Greater stability
- b. Can be flipped into right or left
- c. Better grip, better confidence
- PU Coated
- a. Same as Walking Stick
- Excellent workmanship
- a. Same as Walking Stick
- ABS Handle
- a. Same as Walking Stick

Crutch Pod (Goose Neck - 22mm/15mm)

Product Code : L-10/L-11 Size : Universal

- PU/PVC Pod
- a. Very long life
- b. Transparent looks
- c. Better aesthetics
- d. Anti-slip properties
- Steel disc
- a. Stick doesn't cut into the Pos
- b. Enhances functional life of the pod
- Goose neck design and shape
- a. Good grip
- b. Great looks
- c. Smooth bending

Walking Stick Pod (Pyramide-19mm)

Product Code : L-09 Size : Universal

- PU/PVC Pod
- a. Very long life
- b. Transparent looks
- c. Better aesthetics
- d. Anti-slip properties
- Steel disc
- a. Stick doesn't cut into the Pod
- b. Enhances functional life of the pod
- Pyramid design
- a. Sturdy
- b. Long life

Insole Full Silicon (Pair)

Product Code : K-01 Size : S, M, L

- Made of Silicon
- a. High cushioning coefficient. Next to nature,
- b. Shock absorption and energy return
- c. Long functional life.
- Anatomical and streamlined shape
- a. Ensures better weight distribution
- b. Reduces peak loading
- c. Helps correct body alignment
- d. Lessens the strain on ligaments, muscles and Achilles tendon
- Extra soft spot
- a. Reduces pain immediately in calcaneal spur problem.
- b. Relieves pressure at the base of the calcaneus.
- Thin Construction
- a. Can easily be put into shoes, convenient and comfortable.
- Non Cellular
- a. Has a long functional life.
- b. Odourless
- c. Easy to clean and maintain.

Heel Cushion Silicon (Pair)

Product Code : K-02 Size : S, M, L

- The honey comb structure
- a. Enhances shock absorption properties.
- Made of silicon
- a. High cushioning coefficient, prevents heel, joint and back pain
- b. Long functional life
- Extra soft spot
- a. Relieves pressure at the base of the calcaneus.
- b. Reduces pain immediately in calcaneal spur problem.
- Non cellular.
- a. Has a long functional life.
- b. Odourless.
- c. Easy to clean and maintain.

Heel Cup Silicon (Pair)

Product Code : K-09 Size : S, M, L

- Made of silicon
- a. Same as Insole Full Silicon
- Anatomical and streamlined shape
- a. Same as Insole Full Silicon
- Extra soft spot
- a. Relieves pressure at the base of the calcaneus.
- b. Reduces pain immediately in calcaneal spur problem.
- Thin Construction
- a. Can easily be put into shoes
- b. Convenient and comfortable.
- Non Cellular
- a. Has a long functional life.
- b. Odourless.
- c. Easy to clean and maintain.

Toe Separator Silicon (Pair)

Product Code : K-04 Size : S, M, L

- Anatomically designed
- a. Aligns big toe, Relieves pain in Halux Valgus
- b. Separates toe fingers
- c. Takes care off toe fungal infections like Dhobi itch
- d. Improves comfort
- e. Better tolerance and compliance
- Non Cellular
- a. Has a long functional life.
- b. Odourless.
- c. Easy to clean and maintain.
- Soft and cushiony
- a. Takes care of pain caused by callus, corn and bunions
- b. Can be used in post surgical care
- c. Improves comfort.

Metatarsal Pad Silicon (Pair)

Product Code : K-08 Size : Universal

- Made of silicon
- a. High cushioning coefficient.
- b. Next to nature, shock absorption and energy return
- c. Long functional life
- Non Cellular
- a. Has a long functional life.
- b. Odourless.
- c. Easy to clean and maintain.
- Anatomical and streamlined shape
- a. Ensures better weight distribution
- b. Cushions against injury to the area
- c. Reduces immediately metatarsal pain

Pursuant with excellence.....
